Ms. Mackie stated that the District has been requested to acquire the portion of the right-of-way for Nemours Parkway Phase 7 located within the Boggy Creek Improvement District, which contains 0.836 acres. The

deed, which is included in the agenda book, is in the form that the District normally uses to accept right-ofway conveyances. Also included is the closing statement for the acquisition with the cash due to the Developer at \$62,700.00 for the 0.836 acres at the \$75,000 per acre price. Ms. Isaacs asked if the work was completed. Mr. Newton stated that it should be finalized in July or August. He added that platting is needing to take place but that cannot happen until the District owns the right-of-way. Ms. Isaacs recommended that the District staff acquire the acceptance letters from the City of Orlando. Ms. Mackie noted that the District has been getting letters and will continue to stay up on that. She also reminded the Board that there will be a maintenance bond in place for the first two years once final acceptance is given.

Ms. Walden asked the Board to table this item until the next meeting.

TENTH ORDER OF BUSINESS

Consideration of Award of Landscape and Irrigation Maintenance Services – State Road 417 (Central Florida Greeneway) & Lake Nona Boulevard Interchange a. Construction Committee Recommendation

Mr. Thacker stated that the evaluation criteria as well as the backup documentation for each of the proposers is included behind Tab 8 and Tab A has the recommendations from the Construction Committee. He noted that the bid prices are included along with the points awarded. Helping Hand Lawn Care was awarded zero points based on their bid being incomplete as they did not provide information that was required to adequately evaluate their ability to perform the scope of work. The Construction Committee is recommending Down to Earth as #1, Omega Scapes as #2, Carol King as #3, and BrightView as #4 with Down to Earth being awarded the contract.

Ms. Walden noted that with the Interchange proposals there were additional questions asked of the proposers and Omega Scapes did not answer those questions. One of those questions asked if the proposer would be able to obtain approval from CFX to work within the right-of-way. She also noted that the CFX documents state the contractor will need to have one fulltime employee holds a FNGLA Landscape Contractor certification. District staff was able to verify that one employee from each proposer with the

exception of Helping Hand Lawn Care had that certification. The documentation provided does not state who holds that certification so it's possible another employee not listed in their proposal holds that certification and until it is stated who that individual is we are unable to verify certification.

On Motion by Mr. Ventura, second by Ms. Isaacs, with all in favor, the Board of Supervisors for the Boggy Creek Improvement District adopted the rankings provided by the Construction Committee for the Landscape and Irrigation Maintenance Services – State Road 417 (Central Florida Greeneway) & Lake Nona Boulevard Interchange as Down 2 Earth ranked as #1, Omega Scapes ranked as #2, Carol King ranked as #3, BrightView ranked as #4 and Helping Hand Lawn Care deemed non-responsive and authorized District staff to send out the notice of award letters.

ELEVENTH ORDER OF BUSINESS

Consideration of Award of Landscape and Irrigation Maintenance Services – Lake Nona Boulevard South and Roadways b. Construction Committee

Recommendation

Mr. Thacker stated that the evaluation criteria as well as the backup documentation for each of the proposers is included behind Tab 9 and Tab A has the recommendations from the Construction Committee. He noted that the bid prices are included along with the points awarded. For this one, the bids and points were broken out by section and as all sections combined as the District is able to award each section individually or all together. Helping Hand Lawn Care was awarded zero points based on their bid being incomplete as they did not provide information that was required to adequately evaluate their ability to perform the scope of work. The Construction Committee is recommending Cepra as #1, Down 2 Earth as #2, Carol King as #3, BrightView as #4, and Omega Scapes as #5 for the rankings for section 1. The Construction Committee is recommending Cepra as #1, Down 2 Earth as #3, Omega Scapes as #4, and Carol King as #5 for the rankings for section 2. The Construction Committee is recommending Cepra as #1, Down 2 Earth as #2, BrightView as #3, Omega Scapes as #5 for the rankings for the combined sections. So Cepra is being recommended to be awarded the contract for the combined sections. Mr. Ventura asked which section included which areas. Mr. Thacker responded that section 1 includes Lake Nona Boulevard and section 2 includes all of the side streets.

On Motion by Ms. Isaacs, second by Mr. Ventura, with all in favor, the Board of Supervisors for the Boggy Creek Improvement District adopted the rankings provided by the Construction Committee for the Landscape and Irrigation Maintenance Services – Lake Nona Boulevard South and Roadways as Cepra as #1, Down 2 Earth as #2, BrightView as #3, Carol King as #4, and Omega Scapes as #5 and Helping Hand Lawn Care deemed non-responsive and authorized District staff to send out the notice of award letters.

Mr. Kaufmann presented the work authorization from VHB for the investigation into the existing pole foundations which were installed in approximately 2010 to see if the foundations could be reused for the new system design. He stated they could not be reused. Ms. Isaacs asked how much savings would have been had they been able to reuse them. Mr. Kaufmann responded approximately \$30,000.00.

<u>District Counsel</u> - Ms. Mackie stated that District staff will work on sending out the notice of award letters for the Landscape and Irrigation Maintenance Services. She wanted to make the Board aware that the District has had prior conversations with Helping Hand Lawn Care, LLC who was deemed nonresponsive and they may send in a protest letter. The Board will be made aware at the next meeting if the District does receive such letter.

 District Manager Ms. Walden noted that the next meeting is scheduled for Tuesday, June 18, 2019. She also noted that District staff found that landscaping expenses related to Gateway Road were not being split appropriately with the Myrtle Creek Improvement District. This item has been resolved and is reflected in the budget moving forward.

 District Engineer –
 Mr. Newton distributed the Construction Status Memorandum (Minutes Exhibit B). Nemours West and Lift Station 10 is in project close out. Certification of completion to the City will be submitted once as-builts are done. The same can be said for the turn lane improvements at Tavistock Lakes Boulevard and Veteran's Way.

The traffic signal improvement at Nemours Parkway is now complete. Change Order #3 is needed for this item in the amount of \$24,284.90 as the plans that TCD bid were changed by VHB in response to City comments after TCD was awarded the contract.

Nemours Parkway Phase 7 is proceeding and should be completed in July or August. Attached to the report is a price from Jr. Davis concerning the curb ramps and cross walks. The estimated cost of the connections is \$7,085.18, subject to final design and permitting. Mr. Newton stated that at the last meeting it was asked what the price would be per ramp. Since the northern ramps have to be connected, the southern ramps were the only ones broken out. Those ended up being \$1,850.40 of the total. He recommends to connect all of the ramps with the anticipated cost of \$7,085.18 subject to final engineering design and permitting.

Can you please review this change order and let us know if it makes sense? Some kind of graphic showing the added items would be helpful to District staff and the Board.

This looks good to me. It has been forwarded to VHB for approval and will then be submitted the District Manager for payment.

Can you please split out the cost of the two southern connections on the west end? It isn't clear if the District will want to do those or not – it depends on how much it costs.

Gentlemen,

Below is an image showing six locations in which there are curb ramps that are not attached to the sidewalk/trail system. While I realize you will need design plans for these locations in order to insure that ADA compliant slopes are achieved, the CDD Board has asked how much it will cost to connect these ramps to the sidewalk system. On the south side of the road, this would simply mean installing an interim segment of 5-foot sidewalk connecting the two ramps. Would you please provide a cost for this work?
