The Palm in the middle island was removed. THIRTEENTH ORDER OF BUSINESS

Consideration of Florida Industrial Electric Proposal for Signalization at Laureate Blvd and Veterans Way

Mr. Kaufmann stated the District has a cost share agreement with the VA at the intersection of Veterans Way and Laureate Boulevard. It is a 50/50 cost share on construction, with the Boggy Creek District being solely responsible for the design, which was completed and approved by the City in September. The project was bid and there was a scheduled public bid opening, but the District didn't receive any bids. He noted that three contractors picked up plans but none of them produced a bid on bid day. District staff went back to those contractors and received a proposal from Florida Industrial Electric, which is included in the agenda, and this was reviewed by the Construction Committee recently to see how to proceed. Mr. Kaufmann noted the cost was significantly higher than the original estimate of \$650,000.00, and this proposal came in at about \$1,000,000.00. He stated it was the Construction Committee's recommendation to rebid at a later date in an attempt to get multiple bids and a potentially lower price.

Discussion ensued about the lack of interest on the initial go around and any issues the delay may cause.

Mr. Newton stated as long as the District is on a path to get this done, he thinks the VA will be understanding of the delay. There are two options; award the contract to FIE based on their proposal, with the District being responsible for half, or rebid at a later date.

Ms. Mackie noted that, because the District failed to receive any bids in response to the public advertisement, the District is able to directly procure services and go through the informal process of requesting bids from interested contractors and having discussions about the bids received. She stated it would be advisable that the District continues to pursue at least one additional bid. Then the Board can evaluate whether to move forward at that time.

Mr. Young stated the Developer's preference is to defer and revisit again to see if the cost has changed. The Board agreed to have communication with the VA and to go out to bid in three to six months.

On motion by Mr. Ventura, seconded by Mr. Czapka, with all in favor, the Board of Supervisors for the Boggy Creek Improvement District rejected the bid and approved District staff to communicate with the VA about going back out to bid in three to six months.

Mr. Kaufmann stated there is a proposal for additional support from Atkins related to the traffic signal at the VA entrance. There were efforts to try and reduce the cost of the project, but they were denied by the City. The cost for the additional support from Atkins is \$7,813.00.

On motion by Mr. Ventura, seconded by Mr. Czapka, with all in favor, the Board of Supervisors for the Boggy Creek Improvement District ratified the proposal with Atkins for \$7,813.00.

TWENTY-THIRD ORDER OF BUSINESS

Review of District's Financial Position and Budget to Actual YTD

Ms. Walden stated numbers are updated through November and the District has expenses of \$132,500.00 versus the overall budget of \$1,760,000.00. So, the District has spent 7.5% of the budget so far this Fiscal Year.

Dr. Levey asked about the final closeout of FY 2022. Ms. Walden noted those numbers are included behind this year's numbers. District staff did not need to adjust the budget as nothing went over the threshold.

Dr. Levey asked about carryforward from FY 2023. Discussion ensued regarding carryforward budgeted and actual amounts.

TWENTY-FOURTH ORDER OF BUSINESS

Staff Reports

District Counsel –

Ms. Mackie stated legislative session committee meetings will start after the first of the year. The Board Members will start receiving copies of Capitol Conversations from District Counsel with any proposed bills that may affect the operation of the District.

District Manager –

Ms. Walden noted Board meetings are going back to the third Tuesday of the month. January's meeting will be on January 17, 2023.

Ms. Walden noted District staff received a proposal from Berman for pressure washing monuments and walls. She stated after working with Mr. McDermott and Mr. Kaufmann there were some items that needed to be clarified before getting the final proposal. Ms. Walden asked if the Board wanted her to bring that proposal back, did the Board want to authorize the Chair a not-to-exceed amount of \$2,000.00, or did the Board want District staff to go out to bid for more proposals as their sister Districts are doing. The Board agreed to seek other proposals.

District Engineer –

No report.

Landscape Supervisor –

Mr. McDermott stated the tree trimming was done on Medical City Drive. The tree trimming on Veterans Way and Sanger Road will be done on December 22nd. He stated he will be bringing an enhancement package to the Board at the January meeting to discuss how to use the enhancement budget.

Dr. Levey asked for conformation that the tree trimming on Lake Nona Boulevard and the additional lighting adjustments solved the pedestrian lighting problem. Mr. McDermott confirmed that is solved.

Irrigation Supervisor –

No report.

Construction Supervisor –

Mr. Kaufmann stated in reference to the lights on Lake Nona Boulevard he is working with OUC to get the District a proposal to increase the lumens on the lights extending along Lake Boulevard to Medical City Drive. OUC hasn't provided it yet, but they said they would reimburse the District for the underground construction cost. They proposed rather than give a reimbursement that they use the amount of money paid to fund the upgrade cost monthly. Dr. Levey asked if the existing lighting is deficient. Mr. Kaufmann stated for the purpose of illuminating the trail and sidewalks there is a deficiency. He noted hopefully by the next meeting he will have the proposal from OUC.

TWENTY-FIFTH ORDER OF BUSINESS

BASIS OF PROPOSAL AND CLIENT RESPONSIBILITIES

Our Agreement is also based on the following conditions and limitations:

BASIS OF PROPOSAL

CLIENT has performed the necessary due diligence research to confirm that the site is suitable for the intended purpose.

The CLIENT is advised that concurrency management and comprehensive plan consistency will impact the land development process. Regulations regarding concurrency and consistency vary according to governmental jurisdiction. The status of concurrency, consistency and, if applicable, vested rights must be addressed for all projects within the State of Florida. DWMA presumes the CLIENT is aware of the issues and resultant impacts described. DWMA disclaims responsibility for delays that may be encountered due to failure on the part of the CLIENT to address concurrency and consistency issues prior to initiation of Services proposed herein. DWMA is not responsible for changes to the approved plans that may alter the concurrency vesting status or for noncompliance on the part of the property owner with regard to the performance terms and conditions established in the vesting certificate.

DWMA will not be responsible for any circumstances, acts, errors, omissions or events, of any type, beyond its control including, without limitation, construction costs, the acts or failures to act of any governmental or judicial agency, or the existence of hazardous waste of any type associated with the Project. No Services associated with hazardous waste of any type are included in any way in this Agreement.

Without limitation, architectural, traffic engineering (e.g., studies, signalization), structural engineering (e.g., retaining walls, bridges, docks), mechanical engineering (e.g., fire pumps), fire protection engineering (e.g., dedicated fire lines beyond the point of service), electrical engineering, geotechnical engineering and testing, environmental assessment, landscape and irrigation design, non-civil utility engineering (e.g., power, gas, telephone, cable television, site lighting) and any other professional or consultant services required by CLIENT and not undertaken by DWMA, shall be retained separately by the CLIENT. No Services are included in this Agreement other than those specifically listed herein.

DWMA may be mandated by regulatory authorities to incorporate findings, requirements and details of design in their construction plans that are prepared by professional geotechnical engineers and not by DWMA. In doing so, DWMA assumes no responsibility or liability for the design, construction or operation of geotechnical engineering components which may include, but not be limited to, underdrains, ground stabilizers, backfills, embankments, etc. CLIENT must also recognize that some of these systems (i.e., underdrains, etc.) usually require extensive field supervision during construction and certification after construction. These systems are subject to damage by other activities during or after infrastructure

construction such as other utility installations (power, telephone, cable, gas, etc.). DWMA assumes no liability for damages to any design element caused by the improper design, construction, operation or maintenance of improvements designed by others.

DWMA, in and through its review and/or use of design and calculations prepared by others, is not responsible for or liable for error or omissions in the design and permitting services provided by others. CLIENT's consultants will provide DWMA with permission to utilize and rely upon their work product as the basis of DWMA's design. Certain elements designed by others may be shown in DWMA construction plans for context only.

DWMA's performance and work product quality is dependent upon the timely provision of services from CLIENT-selected and contracted third-party consultants, including but not limited to geotechnical engineer, environmental consultant, transportation engineer, landscape/hardscape/irrigation designer and/or legal consultant whose services, while coordinated to the extent possible, are beyond the scope of responsibility of DWMA.

If locating underground utilities is expressly included in the Services, DWMA will locate such underground utilities as may be marked by a utility locating service retained by CLIENT. DWMA shall not be liable for showing any utility lines not marked by the locating company. DWMA cannot and does not guarantee or warranty that unidentified utilities will not be encountered.

Any opinion of construction cost prepared by DWMA represents its judgment as a design professional and is supplied for the general guidance of the CLIENT only since DWMA has no control over the cost of labor and material or over competitive bidding or market conditions. DWMA does not warrant or guarantee the accuracy of such opinions.

No permit applications or negotiations with regulatory agencies or permitting authorities are included other than those specifically listed herein.

If construction services or observation of construction are included herein, the Services included by DWMA will be to conduct periodic visits and observations to determine that the Work generally conforms or will conform to the applicable contract documents in relation to DWMA's engineering Services. DWMA's Service shall not include determining, supervising, implementing, or undertaking the responsibilities of the contractor, subcontractors or others, regarding means, methods, techniques, sequences and procedures of construction, nor for job conditions, safety precautions or programs. Construction phase services for systems designed and permitted by others are not included.

Construction phase retesting resulting from failures or no-shows, and therefore requiring additional site visits, shall be additional services and is not included in the scope of this agreement. Such services will be invoiced separately on an hourly basis for back-charge to the contractor by CLIENT.

CLIENT's contractor and/or surveyor will provide certified as-built surveys prepared by a Florida-licensed surveyor for DWMA's use and reliance in preparing project certifications and/or record drawings. Any as-built surveys required to be performed by DWMA due to failure of contractor's surveyor to provide accurate and complete survey data will be invoiced separately on an hourly basis for back-charge to the contractor by CLIENT.

Federal Emergency Management Agency (FEMA) Map revisions or amendments which may be required by regulatory agencies or lenders are not included unless specifically listed in Basic Services.

Provision of customized digital data files to CLIENT, CLIENT's consultants and/or CLIENT's contractor is not included. DWMA work product will be prepared digitally in AutoCAD Civil3D® 2018 or later.

CLIENT RESPONSIBILITIES

The CLIENT will provide DWMA with plans and other pertinent information which may be necessary to properly survey or engineer the Project.

Prior to initiation of preliminary or final design, an approved site plan and final dimensioned building footprint(s) will be provided to DWMA by CLIENT, which will be complete with final geometry, and will be relied upon by DWMA.

The CLIENT will engage a professional geotechnical engineer to provide necessary hydrogeologic design support, relevant construction specifications for earthwork items and required construction inspection and certification. CLIENT's geotechnical engineer shall be responsible for final certification of all flexible and rigid pavement. DWMA has the CLIENT's authority to rely on this professional information as a basis for its design Services and certifications.

The CLIENT will engage a professional environmental consultant to provide jurisdictional determinations and necessary design and permitting support for wetland and special species issues.

The CLIENT will engage a professional environmental firm or firms who specialize in all matters relating to "hazardous" or "special" materials wastes, deposits, soils, contamination, etc., as may be required to support permitting or construction of the Project.

The CLIENT will engage a professional landscape architect to provide landscape and irrigation design related to the development of the property as intended by CLIENT.

The CLIENT will engage a professional architect to perform all architectural services including, without

limitation, incorporation of the work product of DWMA, and compliance with local, state or federal laws, regulations, codes and Americans with Disabilities Act ("ADA") requirements.

The CLIENT will engage a professional transportation consultant to provide analysis related to development of the property as intended by CLIENT, including but not limited to traffic studies, determination of turn lane requirements, traffic signal design, Maintenance of Traffic (MOT) plans and roundabout geometry, striping and signage design.

The CLIENT will engage a professional legal counselor to provide legal services related to development of the property as intended by CLIENT.

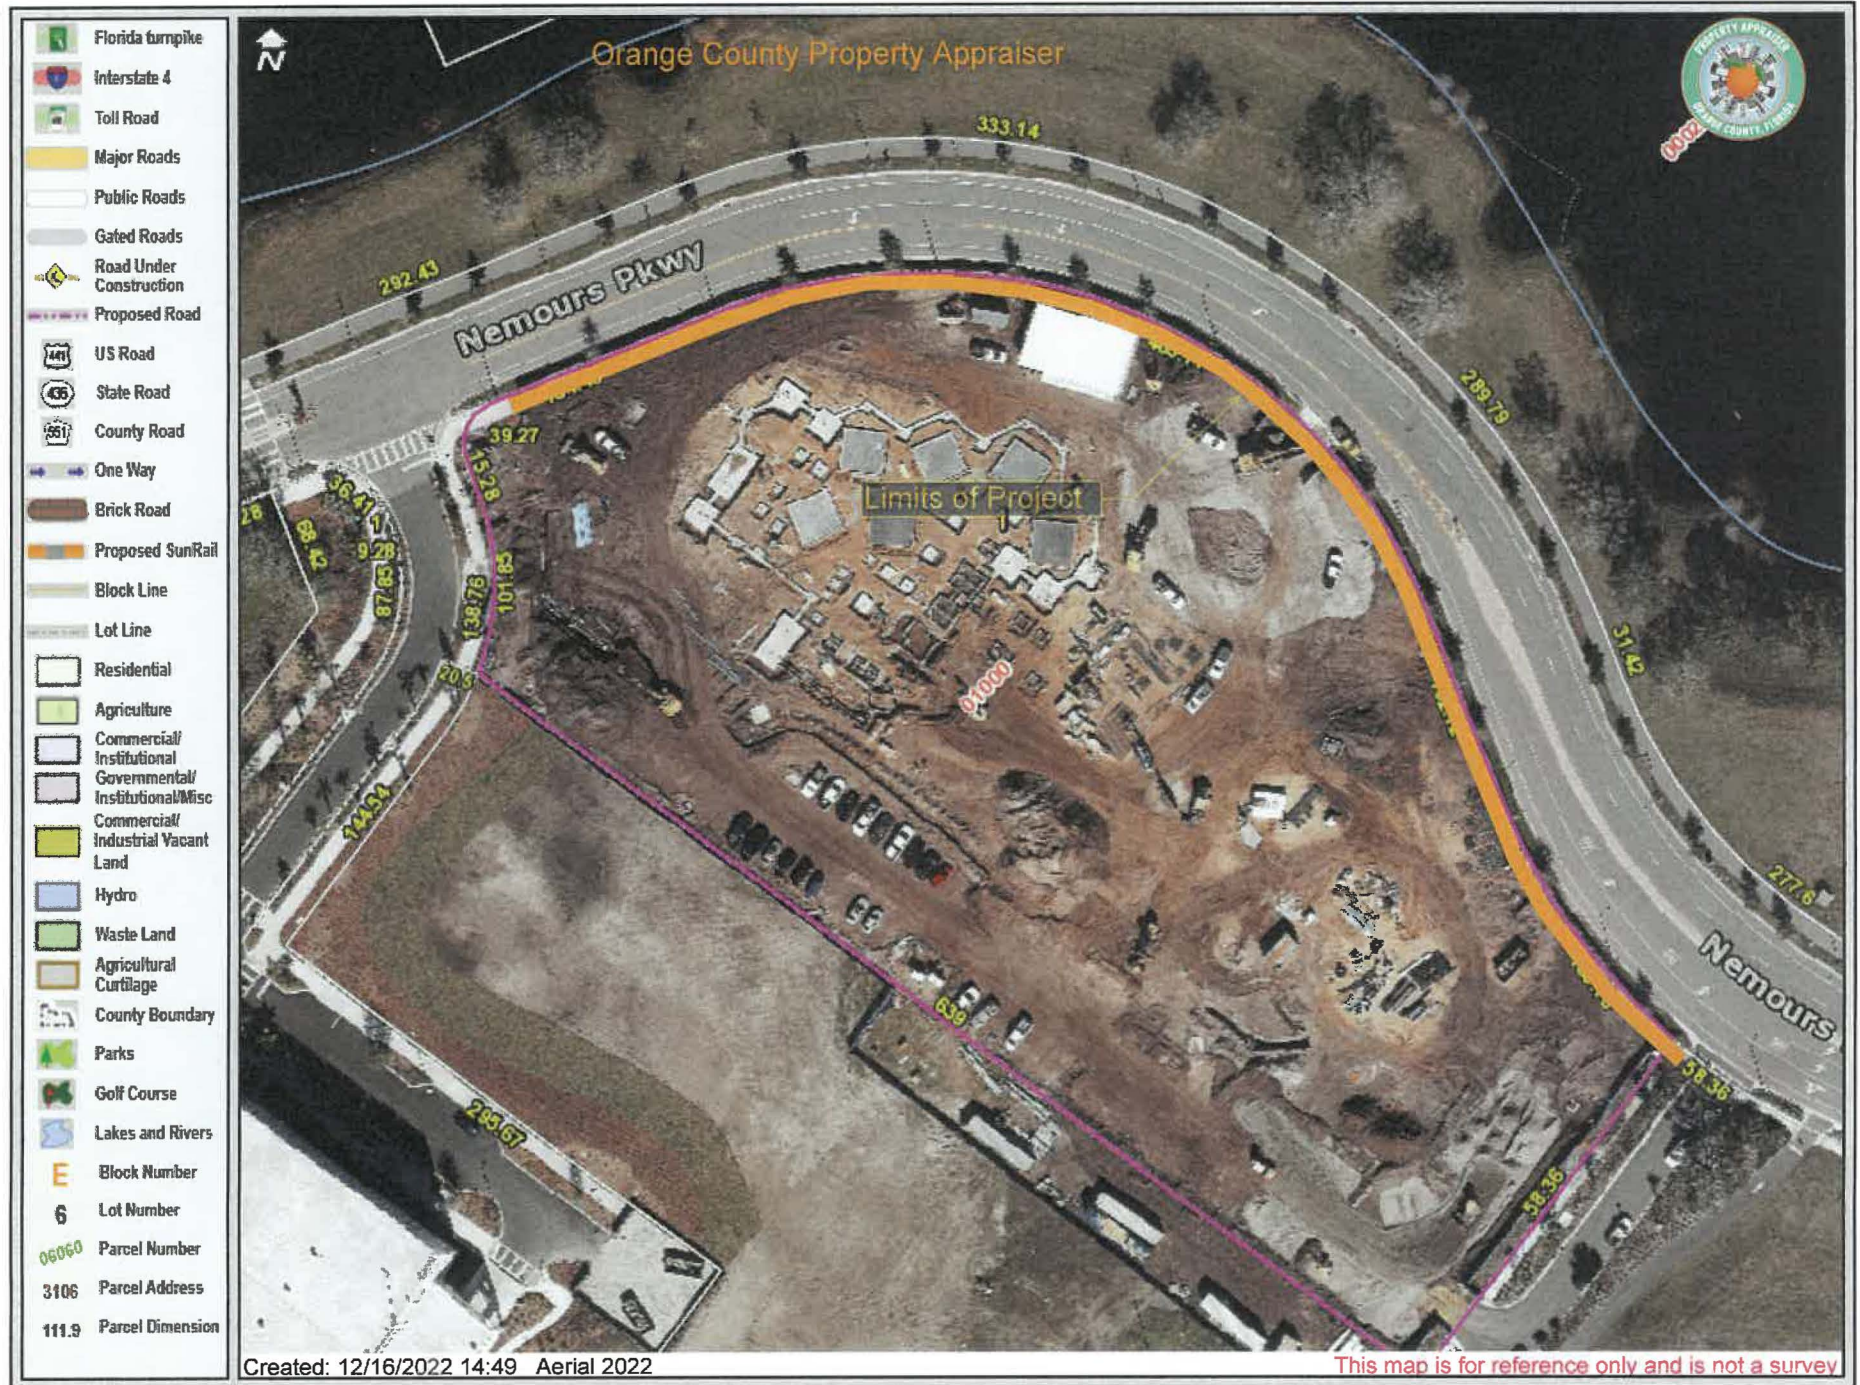

The CLIENT will engage a professional state licensed hydrogeologist for completion of hydrologic data required in support of a Consumptive Use/Water Use Permit.

The CLIENT will engage a professional archaeologist to provide archaeological analysis related to development of the property as intended by CLIENT.

The CLIENT agrees that DWMA shall have no responsibility for the accuracy of information provided by, or for any portion of the Project designed by the CLIENT or CLIENT's other consultants, or for compliance with local, state or federal ADA requirements. DWMA shall not be required to check or verify the CLIENT's or other consultants' work product, information, or construction documents and shall be entitled to rely on the accuracy and completeness thereof, as well as the compliance of such documents with applicable laws, codes, statutes, ordinances, and regulations, including, without limitation, ADA requirements. The CLIENT also agrees to require all other consultants engaged by the CLIENT to coordinate their design or construction documents or reports with the work product of DWMA, to promptly report any conflicts or inconsistencies to DWMA and to cooperate fully in the resolution of those conflicts or inconsistencies. The CLIENT further agrees, to the fullest extent permitted by law, to indemnify and hold harmless DWMA from any claims, damages, liabilities or costs, including reasonable attorney's fees and defense costs, arising out of or relating to false, inaccurate, or non-compliant information provided by CLIENT or its other consultants, or the services performed by other consultants engaged by the CLIENT.

The CLIENT or CLIENT's contractor shall obtain the required National Pollutant Discharge Elimination System (NPDES) permit for the Project.

The CLIENT will provide DWMA with all applicable operation and maintenance budgets and budget reserve estimates for all gated communities prior to submittal of the final plat to satisfy local jurisdiction requirements.
